ITAIR®

Itair®, un innovativo sistema tecnologico di purificazione naturale dell'aria per ambienti indoor che agisce attraverso una pianta decorativa che filtra l'aria, grazie alla presenza di microorganismi ed un vaso smart gestito da una app collegata via Wi-Fi.
La app controlla la presenza di agenti inquinanti nell'aria, gestisce l'accensione e lo spegnimento a seconda del livello di inquinanti rilevati, monitora il livello di temperatura e umidità. Il sistema itair® è validato scientificamente dai laboratori LINV e PNAT di Firenze.

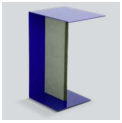

Itair® is an innovative natural air purifier for indoors using an ornamental as filter, thanks to the microorganisms in its roots and a smart vase. Itair® is managed with a proprietary app that connects through Wi-Fi with mobile devices. The app controls the pollutants level in indoors spaces, the temperature and humidity and manages the filters. Itair® has been validated at LINV, International Laboratory for Plant Neurobiology and PNAT in Florence.
